

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Manufacturers of Brickley's Improved Folding Towel and Hat Racks.

ILLUSTRATED CATALOGUE SENT ON APPLICATION.

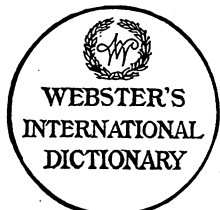

Salesroom and Factory, Auburn, R. I.
P. O. Address, Providence, R. I., Box 329.

Size for size, spider's silk is considerably tougher than a bar of steel. An ordinary spider's thread is capable of bearing a weight of three grains, while a steel thread of the same thickness would support less than two.

THE recess found in many rooms, as one side of a fire-place, or between a chimney and the wall, can be utilized with artistic result and converted into a cosy nook by a low, broad shelf, with a thick mattress cushion. This is to be covered with cretonne or chintz in artistic coloring, with a frill along the front. Put a wedge-shaped bolster at each end, covered with the same, and add one or two pretty sofa pillows. A similar seat may be made of a low, long chest, utilized in storing away unseasonable clothes in a house where there is little closet room. The mattress cushion should have a broad tape stitched along the back, which might be tacked to the lid of the chest to keep the cushion from slipping forward.

THE NEW WEBSTER

Just Published.

Cost \$300,000.

SUCCESSOR OF THE UNABRIDGED.
Re-edited and Reset from Cover to Cover.

A GRAND INVESTMENT
for every Family and School.

Revision has been in progress for over 10 years. More than 100 editorial laborers employed. Critical examination invited. Get the Best. Sold by all Booksellers. Illustrated pamphlet free.

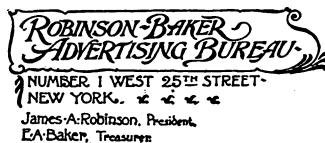

Caution!—Cheap books called "Webster's Big Dictionary," "Webster's Encyclopedic Dictionary," etc., are being advertised. The body of these from A to Z is printed from plates made by photographing the antiquated 1847 edition. The authentic "Unabridged" (still copyrighted) and the new "International" both bear the imprint of G. & C. MERRIAM & CO., Publishers, Springfield, Mass., U. S. A.

THE STEREO RELIEF DECORATIVE CO.,

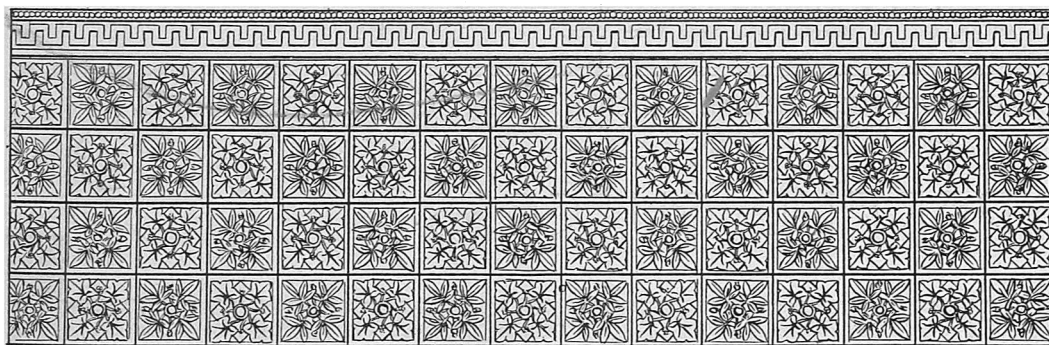

PATENTEES AND MANUFACTURERS OF

STEREO RELIEF CEILING AND WALL DECORATIONS,

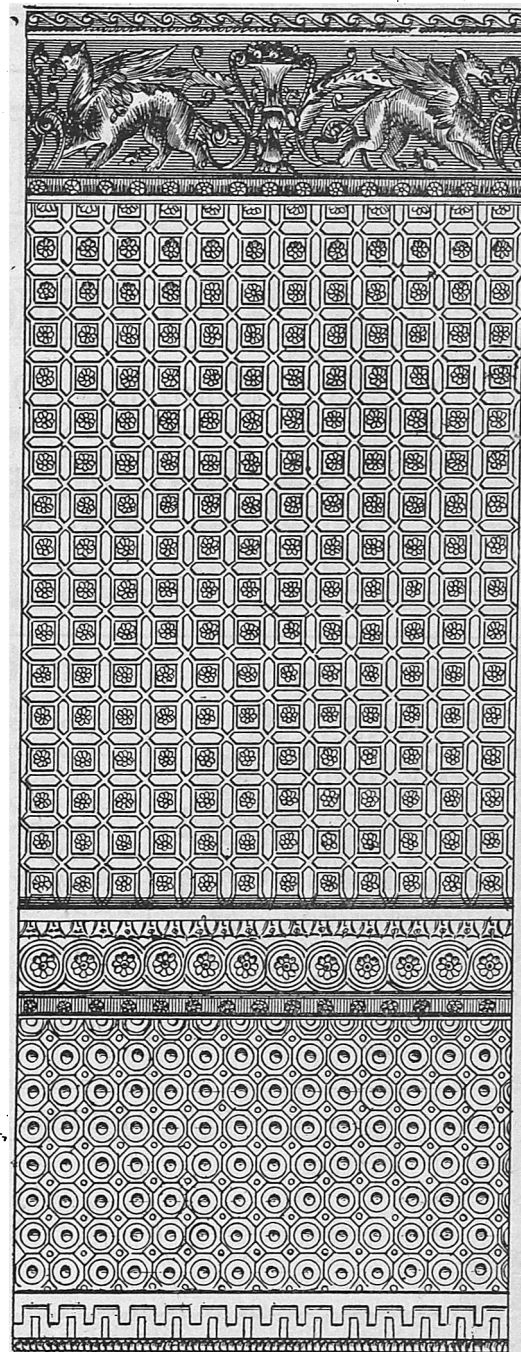

Wainscoting, Friezes, Borders, Panels, Vignettes, Ornamental Centre Pieces, Carvings, Mouldings, Advertising Signs, Letters and Figures, and Corner Scrolls for Signs, &c.

Ceiling in Fire-Proof Stereo Relief.

A Dado in Fire-Proof Stereo Relief.

Wall Filling, Dado and Frieze in Fire-Proof Stereo Relief.

The Stereo Relief Decorative Composition.

THE Stereo Composition can be moulded into an infinite variety of artistic forms, in pure white or in tints, and can be gilded, silvered or bronzed, thus readily reproducing or duplicating any desired design furnished by architects or decorators. This substance contains no oil, white lead, or other inflammable material, and is absolutely fire-proof and sanitary. It is not affected by contact with water or by any sudden change of temperature.

Its expense is less than that of any other artistic decoration, and it fully equals the best in beauty, while it surpasses all others in the essentials of Strength, Lightness, Adhesiveness and Non-Inflammability.

It is admirably adapted for the decoration of churches, theatres, public halls, hotels, restaurants and private residences; and, as a substitute for paint, paper, frescoing, kalsomining or other hard finish, it is infinitely more economical—quality and durability being considered.

Stereo Relief Friezes, Dadoes, Panels, Etc.

The Company has always on hand a large and elegant assortment of friezes, wall fillings, borders, panels, dadoes, rosettes, etc., etc., in relief, manufactured from its Stereo Composition. This material is far superior to papier-maché, or plaster; is light, but strong and substantial, and admits of the application of any desired style of ornamentation. These decorations, embracing entirely new designs, are made in very high, as well as low relief, and are readily and safely handled.

Your attention is especially asked to the fact that our work is complete before it is sent out from our factory, and can be put up by any workman in the decorative trade, thus enabling our patrons who are at a distance to render perfect satisfaction to their customers.

The high relief in which this new composition can be produced forms one of its prominent features, an elevation of six or eight inches being as readily shown as one of half an inch. And, as the material is cast in flexible moulds, a perfect under-cut—that great desideratum of artistic relief work—is obtained with ease. In representations of heads and figures, a life-like resemblance is effected; and architectural details are also followed with a similar fidelity; while in fruits, vines and flowers, the grace, beauty and pose of nature are retained, and the stiffness and preciseness of stamped work, such as the Lincrusta-Walton or papier-maché, are avoided.

In conclusion, we claim that there is a great public need of productions such as ours, and we believe that, in our new material, we have reached the desired point of perfection.

Pre-eminent in all elements of decoration, and its development and practicability established beyond peradventure, we most respectfully ask your co-operation in the ultimate establishment of the Stereo Relief Decorations as a leader for all kinds of wall and ceiling ornamentation.

We invite correspondence, and, having no fear of competition, shall be glad to furnish estimates promptly. Personal inspection of our work is solicited, as well as a visit to our factory and salesroom.

To the Publishers of

"The Decorator and Furnisher",

City

Gentlemen:-

We think it only fair to you to state that we have found "The Decorator and Furnisher" to be the best medium for advertising our business amongst the many journals in which we have advertised for some time past. The returns and inquiries received in reply to our advertisement in your journal were more than the returns from our advertisements in all the other journals put together. An effect so gratifying as this ought to be made known to you, and you are at liberty to make any use of this letter that you think proper

Very truly yours,

THE STEREO RELIEF DECORATIVE CO.

Interior Architecture.

MADRAS curtains are particularly new this
year in designs and colorings. Some are in
perpendicular stripes of white, with olive, dark
red, old blue, etc., the groundwork looking and
feeling like the softest silk grenadine, while
the scattered figures are not coarse and rough,
but smooth and just strong enough to stand
out well from this delicate background. One
variety has a ground of soft crape, with bands
and scattered small figures, of highly conven-
tionalized designs in pale colors, which are,
however, almost illuminated when hung up to
the light.

MARBLE may be stained different colors by
the use of the following substances: blue,
solution of litmus; green, wax colored with
verdigris; yellow, tincture of gamboge or tur-
meric; red, tincture of alkanet or dragon's
blood; crimson, alkanet in turpentine; brown,
tincture of logwood; gold, equal parts of verdi-
gris, sal ammoniac, and zinc sulphate in fine
powder. The marble should not be quite
polished, but made perfectly smooth and ready
to receive the highest finish before the stain is
applied. The longer the stain is left in contact
the better the result.

No House is completely Furnished unless Properly HEATED and VENTILATED.
